Any future calls of burning garbage on this property will be recorded and sent to the CO in Powell River, with pictures and details including time and what was burning.  Repair part for 602 brakes is here now, and Tinhat Repairs has asked for Breezy to repair the problem, so it gets done faster. They are backed up in Powell River.  Once the department gets paid for the wildfire, I would like the firefighters that responded to any wildfires get paid what BC wildfire gives us for each member. GB does this. Call it honorarium. The payment for myself and the engine can go into VAFD funds for whatever we need. No claims from last year — GB claimed.  Avg members at practice is 4.5 per week. Two of the practices with joint with GBFD.  11 firefighters on paper; 4-5 frequent responders, depending on their hours of work.  GB considering paying their firefighters for practice and calls. Negative response for this at their AGM. Paying means activities are more restricted and higher standards to reach. A firefighter honorarium is generally considered to not impinge on their humanitarian work. MR will check with GB chief about honorarium (not income). Wait till GB figures it out.  PN (Deputy) monthly honorarium @ ½ MR rate. JM moved and JW seconded a monthly honorarium of \$250 to be paid to the Deputy Chief.  MR to add Canadian flag stickers to trucks — widely done by other FDs.  Stored gear from MVA will be back to owner by weekend.  MR had evacuation seminar with qRD (annual event).	ACTION
