4. Approve Agenda	RS	Agenda was approved with minor corrections.	Moved JC 2 nd JW
5. Approve Minutes	RS	Last meetings minutes approved.	Moved JW 2 nd GF
6. Election of Chair	RS	JM nominated RS, JW seconded, RS accepted.	Moved JM 2 nd JW
7. Safety Moment	MS	<ul style="list-style-type: none"> Fire Safety – dry as a bone. Complete Fire Ban continues in both IDs even tho Prov ban is lifted 	Info
8. Water, Dam, & Operations Report	JS	<ul style="list-style-type: none"> Daily testing and ionX full cycle by MS, BR and TA Dam last inspected May 6th by BR. All OK. Lake level at 36cm, was 42cm in April. Flow continues over the spillway Chlorine levels continue within proper range. Manual adjustments continue Chlorine pump roller assembly to be replaced. Lengthy process to determine the right replacement part. Generator operated monthly. Forsta screens have mechanical degradation. Replacements ordered and have made it through customs. Harmsco filters on order. BR completed SWS course. Exam rescheduled for June 3rd. MR started Level 1 Treatment courses. To be completed by June 30th. Plan to start hydrant maintenance program once the meter installation work is complete. A service in the spring, B service in the fall. Winch for the truck is being purchased for lifting hydrants. Plan to develop valve program once hydrant program is underway. Some have known issues. Many are not flanged so will be more complicated to replace. Check purchasing policy re: limit for when tender needed. Other contractors have not shown interest. Include regular call for contractors in Express Lines. 	Info

		<ul style="list-style-type: none"> Line flushing plans are also being developed. Adding flush points @ dead ends using yard hydrants. Consider if adaptable for fire use. 																	
<p>9. Old Business and Extended</p>	<p>RS</p>	<ul style="list-style-type: none"> Meter Project <ul style="list-style-type: none"> Running behind schedule. Aim to be substantially complete in August Dunsmuir St. 130 ft length of 1 ½” sch 40 PVC to be replaced with 2” HDPE to serve three properties. Room in budget for this and parts on hand. Not as much plastic as expected in Main St alley. Duker Rd (Wilson). Substitute the 2” meter with two ¾” indoor meters. Low pressure issues. Texada Island Inn to have a 2” meter in lieu of the 1” the service was initially thought to be. Can use the meter purchased for Duker. Investigate Smelter Ave property line re: location of 3 meter boxes in fenced yard with dog. Have found easement plans that may have pins to ensure new location is in the nearby road allowance where no road exists. The Smelter 4” AC main ends at Gracemere house up the hill. Just before leaving the sealed road, it branches down to the area with the (3) meter boxes. Discussion of Statutory Right of Ways (SROW) – for utility access to land (not an easement). Longer term plan is to obtain SROWs for the properties that have mains and other infrastructure on private land. Now that mapping is nearly complete, we can start to create this list of properties and check the titles for SROW existence then create priority list and procedures for obtaining SROWs. <table border="1" data-bbox="407 1108 1382 1255"> <thead> <tr> <th></th> <th>Total</th> <th>Installed</th> <th>Remainder</th> </tr> </thead> <tbody> <tr> <td>Davis Ventures</td> <td>148</td> <td>107</td> <td>41</td> </tr> <tr> <td>VAID</td> <td>86</td> <td>71</td> <td>15</td> </tr> <tr> <td>Total</td> <td>234</td> <td>178</td> <td>56</td> </tr> </tbody> </table> <p>Neptune 360: 35 onboard, approximately 100 activated and data being prepared for onboarding.</p> <ul style="list-style-type: none"> Public meeting to be held around June 25 about billing & data access. COP meeting on Jun 10 will provide billing options to share and use in planning. Make info on plan options available to public before meeting. Get access to display data for privacy during presentation. Vast majority of residents are positive. #1 question is “will I have access to my water data?” A: Yes — for at least the first year, because the customer portal subscription is covered by the grant. After that, it becomes a VAID cost of about \$4,000 per year. Water-use data will always remain Water Operator truck New tires have been installed. Battery not fully charging due to short trips – will be replaced by warranty and trickle charger installed. One bearing and 4WD seals to be replaced. AGM – only 2 members of the public attended. How to get more people? Is this a sign of satisfaction (or of apathy)? Satisfaction could be from VAID transparency, Davis visibility getting things done, MS visibility around town in Fire/Rescue truck. 10. New Business	RS	<ul style="list-style-type: none"> • Express Lines: Fire danger, thank firefighters; meter project progress, identified major leaks; meter billing meeting; call for contractors • Fire fighter survey report discussed. Recruitment idea: include bios in express lines, one per issue. Not just local but also professionals. Board wants to show appreciation – dinner? visit at practice? Ask MR. • VAFD needs to create article for lines as prev GBFD Chief included VAFD but new Chief won't. • Governance Workshop – possible training for volunteer boards. JC has been asking around after learning of these. Keep in mind for future needs. SH working on improvements for New Trustee package. • Water Bank – from public comment at AGM on being empathic to those struggling financially. Draft policy created. Totally voluntary, anonymous, Official Tax Receipts to Donors, separate bank account, fully developed procedures to follow to ensure fairness. Confirm with LG if OK before continuing. If ok, consider that fixed incomes can't match cost increase – numbers need adjusting. Help with bill or with repairs identified by meters? Other items will need refinement if we continue with this. • Cargo trailer purchase for fire fighting. A good one is for sale on Texada. Asking 12k; similar advertised are around 16k. MR wants it. Owner is taking it to PR tomorrow if not sold and leaving for Alberta in a month. Better than the one previously viewed and high quality construction. JW moved to purchase and JC seconded. (Later, after confirming with seller: owner will drop off at Fire Hall tomorrow. Paperwork and payment next week.) Fleet insurance can be applied for now – SH enquire 	<p>SH send</p> <p>SH ask MR</p> <p>SH plan</p> <p>SH ask LG re water bank</p> <p>Moved JW 2nd JC</p> <p>SH fleet insurance</p>
