☐ Commercial ☐ B&B/Vacation rental - maximum number of guests:
☐ Business/Industrial/Commercial – details: _____
☐ Other, specify _____

- Connection Information**
- Applications must be made in writing by the owner and signed by the applicant.
 - The application fee must be paid before VAID work begins. The fee is:
 - \$1,500 for a standard single residential connection
 - Cost to be determined by the Board of Trustees, for any other type of connection
 - Any extra costs over the application fee will be invoiced when work is complete.
 - A Capital Expenditure Charge may apply in addition to the connection fee, in situations such as subdivision, additional connections, and property new to District.
 - Once the application is approved by the Board and all fees received, VAID will install the service connection from the pipeline to the property line, when the property line adjoins the established road allowance containing the District pipeline.
 - If the property line does not adjoin the road allowance, or obstacles prevent locating the service connection at the property line, the service connection box will be placed on the road allowance as close to the property as possible.
 - The property owner is responsible for installing the private service pipe from the service connection box to the premises, including securing any necessary easements.
 - The private service pipe must be inspected and approved by VAID before water supply commences.
 - **The service pipe on your property must be municipal grade tubing of HDPE rated 160 psi with compression fittings rated 200 psi.**
- Initial: _____

Application for New Water Connection

- Connection Details**
- Connection size: _____ (Typical single residential is ¾")
 - Include a map of your property, with approximate location of structure(s), septic field, requested point of service, and any other information that will aid our Water Operators with completing your water service connection.
 - Mark or stake the ground to identify preferred water connection location or area. Note that there may be existing conditions that cause the final location to differ.
