

Water Systems Operation Policy

Adopted date: May 11, 2022	Amended date:	Next Review: 2032
----------------------------	---------------	-------------------

OBJECTIVE

The Van Anda Improvement District (VAID) is permitted to operate potable water supply systems and will operate the systems as required in accordance with the Drinking Water Protection Act and in accordance with the conditions set out in the operating permits.

POLICY

Permits are issued by Vancouver Coastal Health (VCH).

An appropriately Certified Operator shall maintain the systems.

Employees will ensure compliance with the operating permits including periodic water sampling for testing.

Water samples will be taken more frequently should any lab report indicate other than an L1 rating or if requested by VCH.
